

NERGA Handicap Range for 2022

For the 2022 season the NERGA Handicap ranges have been amended as follows.

Inter 7.0 to 14.9

Rabbits 14.9 to 28

A player must be within these handicap Index ranges when they are registered for their 1st event of the season. Registration for a NERGA event opens 2 weeks before the event.

If a players Handicap Index changes AFTER they have played in a NERGA event, and their new Handicap Index is outside of the above ranges, the following apply:

- If a player is cut to below 7.0 for Inter or 15.0 for Rabbits events, they will play off their new/current handicap index.
- If a players Handicap index is raised to above the range, above 14.9 (Inter) or 28.0 for Rabbits, the play can continue to play in NERGA events but will be restricted to the max range.

Competition allowance 95%

All players handicaps will be reduced to 95% as per the England Golf recommended Competition allowance.

Example

Player A has a Handicap index of 10.0

At the host course this converts to a Course Handicap of 12

After applying 95% Competition handicap the player plays off 11 (95% of 12 = 11.4 then rounded to 11)
